After not increasing accounting fees over the past two years, our firm now increased all accounting fees by 10%. This is mainly done to keep up to date with the effect of inflation.

We expect that most clients will experience a slight increase in accounting fees during 2018, as earlier implemented effective systems still has the potential to reduce overall accounting fees. We again urge clients to participate in our Saving Time, Saving Money campaign as to further reduce accounting fees.

Please contact us, should you require any further advice or assistance.
