Good day

SALARY REGISTER - 2019, VERSION 0020

All employers, please read further:
If you are not an employer, you do not need to read further.
This is compulsory reading for all employers.
Only relevant to South African circumstances.
No afrikaans version of this e-mail available.

Version 0020 of your Salary Register for the 2019 tax year is now available at www.Dropbox.com.

Version 4.1.6 of OpenOffice.org Calc is now also available.

This upgrade includes:

- Bug fixes.

How to proceed:

- Open OpenOffice.org Calc and upgrade to the latest version 4.1.6 (*Help, Check for Updates... and follow the instructions*).
- Report all possible bugs on the current Salary Register for 2019.
- Make suggestions to improve the current Salary Register for 2019.

Did you know?:

- Your Salary Register for 2019 makes all calculations automatically, and there is no need to manually re-calculate taxes, levies, overtime, etc.
- Your Salary Register for 2019 makes provision for the use of the Employment Tax Incentive (ETI) scheme. This implies calculating an employment tax rebate when employing certain employees between the ages of eighteen and thirty years old. After updating your employer's and employees' details, the EMP Return will automatically calculate your monthly benefit.
- The Error Report can assist greatly in avoiding problems, errors and omissions, effectively reducing unnecessary accounting fees.

Coming soon:

- Preferred e-mail communication with employees.
- An Employment Equity (EE) Plan under "Employment Equity".
- A Broad Base Black Economic Empowerment (BBBEE) Plan under "Employment Equity".
- Manual unofficial IRP5 / IT3(a) certificates to be issued to employees.
- The introduction of the "Salary Register Import File"-sheet, allowing for a more automated process of transferring data from an earlier Salary Register to the Salary Register of the following tax year.
- The introduction of the "UIF Import File"-sheet, allowing for an automated process of exporting the data to UIF uFiling, again allowing for more regular UI19 submissions..
- Improved and updated EMP501 functionality for the upcoming employees tax reconciliation.
- Further improved error reporting, avoiding even a wider range of problems, errors and omissions, and providing for more acceptable exceptions.
- Further improved EMP501 import functionality, allowing a more automated process of exporting the data to SARS EasyFile for Employers.
- Further improved monthly and weekly payslips, allowing for batch printing, and e-mailing to employees.
- Further improved navigation, further improving the user experience.
- Further improved instructions and help files, further improving the user experience.

Available on request (otherwise available 1 March 2019):

- Please request any future developments in advanced (from myself).

We trust that you will find this in order.

Please contact us, should you require any further advice or assistance.

Regards
